## School District Cuts Levy By .22 Mills

The Crawford AuSable School Board cut .22 mills off the district's debt retirement millage at their last board meeting August 12 held in Lovells.

The action by the board reduces the 1985-86 debt retirement levy from 2.22 to 2.0 mills. The debt retirement is paying for three district buildings, the Grayling High School, the Grayling Elementary School, and Frederic Elementary School.

The Grayling Elementary, which currently costs .3 mills a year, will be paid for by 1989. The Frederic Elementary, which currently costs .4 mills a year, will be paid for by 1991. The Grayling High School current costs 1.3 mills a year.

The debt retirement millage has dropped 7.75 mills since 1971 when the high school was first added to it. The first year millage for the high school was 7.0 mills. The total debt retirement millage in 1971 was 9.75 mills.

In other action at the Lovells board meeting — which attracted about 30 persons — the board heard a report from the Maintenance and Custodial Advisory Committee

chaired by Steve Langseth. Other committee members were Donna Lehto, Thomas Miller, Roger Moshier, Tina Meldrum, Kip Papendick, William Pulgini, Rodney Lob-singer, and Susan Sowulewski.

The consensus of the committee was that three of the four district buildings were well maintained and clean overall, but conditions at the middle school were not acceptable. They said it is apparent public opinion of the district facilities in general are based on perceptions of the middle school, and they recommended greater attention to custodial and maintenance operations there. The committee also pointed out the girls' bathrooms at the high school as a problem area needing more attention.

The committee felt staffing was sufficient to meet district needs and listed 12 recommendations to help the district adequately maintain its buildings.

The school board directed the superintendent and administrative team to analyze the report and give a report to the board at the September meeting including specific recommendations.

## White Fills Council Seat, Sabin Is City Attorney

Joseph P. White has been appointed to the Grayling City Council to replace David Sabin. Sabin resigned from the council to accept the position of City Attorney.

White takes over the unexpired term of Sabin, which runs until November, 1987.

White, a 1958 graduate of Grayling High School, is a certified police officer and fire fighter. He served in the Crawford County Sheriff Department for more than 21 years. White was sheriff from May, 1980, to December, 1984, and helped obtain about

\$300,000 in federal and state grants for the county.

He served as Undersheriff from 1977 to 1980 and worked for the sheriff dept. from 1963 to 1977 in various ranks.

White has served on the Grayling Fire Department since 1965. He was Fire Chief of the department for seven years until he stepped to take over Sheriff duties.

The city council members are now Mayor Sandy Thompson, Robert Golnick, William Dennis Sloan, Dorothy Latuszek, and White.

## Diabetes Education Coordinator Named for Mercy Hospital

Diabetes affects as many as 12 million Americans and contributes to the death of an estimated 300,000 people annually, making it the third leading cause of death, behind heart disease and cancer. The incidence of diabetes appears to be increasing by about 6 percent per year, so that in 15 years the number of people with diabetes in the U.S. will double. The average American born today has a better than one in five chance of developing the disease. Last year, over 400 patients were admitted to Mercy Hospital with a primary, or secondary diagnosis of diabetes.

Despite these disturbing facts, better understanding and treatment of diabetes have made it possible for those affected to live long and productive lives.

Noreen Harmer, coordinator for diabetes education at Grayling Mercy Hospital, and a diabetic herself for 25 years, believes a cure for diabetes will soon be discovered. "Until the cure is available, my goal is to help diabetics learn to control the disease and stay healthy in hopes a cure will come in time to help them," said Ms. Harmer.

In 1983, Ms. Harmer had a successful pancreas transplant at the University of Minnesota Hospital. She is one of about 500 individuals worldwide who have had the operation and been able to discontinue the use of insulin. She is no longer considered diabetic.

Ms. Harmer's experience and knowledge of the disease provides her with an excellent background to teach diabetes education. She has been working closely with Cheryl Melroy, director of food and nutrition services at Mercy Hospital and a registered dietitian, in formulating a comprehensive education program for diabetics to include diet, exercise, medication, lifestyle, insurance and other related topics.

"Diabetes is more than a disease, it's a lifestyle. Everyday there is new information available to help with the management of diabetes. We are offering education in the roles that diet, exercise and medication have in the treatment of diabetes, and we plan to implement more programs aimed at identifying diabetics who have not yet been diagnosed," Ms. Har-

mer said. In June of this year, Ms. Harmer started a Diabetes Support Group at the hospital. The group meets monthly to discuss problems, foods, new drugs, and other common concerns. Response to the program has been excellent, she said, adding, "however, I am finding that many of the participants either do not know a great deal about diabetes, or they have misconceptions about it."

In addition to the support group, on August 28, Ms. Harmer has organized the first monthly community diabetes information sharing meeting. Jim Kremidas, a sales representative for Lilly Pharmaceuticals, will be the guest speaker. He will be talking about Humulin insulin, the latest medication developed for diabetics. Additionally, there will be a lunch served and a film shown on "Diabetes and You."

On Sept. 16 and 18, in the evening, there will be an information session at Otsego Memorial Hospital, Gaylord, entitled Partners In Control (PIC). This program is

## Lovells Township Board Meeting Attracts 100

A Lovells Township Board meeting Aug. 12 that attracted about 100 persons was halted abruptly during discussion involving the recall election for the entire board.

The Lovells board voted to adjourn the meeting after only six minutes of hearing public comment.

Bob DeVos opened the public comment portion of the meeting by saying he had several comments about an article about the recall election in the August 8th Avalanche.

"You claimed you did nothing illegal," DeVos addressed the board. "Did you or did you not have a building permit when construction started?"

"This is the time to face the people," DeVos said. "Don't put it in the paper. Face the people."

"Wait a minute," said Jewell, banging the table with a gavel. "You've had your say. We've answered your questions. We have the right to make answers in the paper. I appreciate your comments and your recall is in order, and we'll wait for the answers then."

"In other words, you can just publish what you want in the paper," said DeVos.

"The same as you can," replied Jewell. DeVos then asked about the legality of not having an architect plan for construction costing more than \$15,000.

Trustee E. Joyce Mullin said this should have been discussed before the recall petition.

"You mean we won't have any answers here tonight?" asked Jim Kinsman.

"We don't have to give any further answers," said Jewell. "We've given our answers in the paper. We are answering your questions as you put them to us by a petition."

## From Our Corner...

The environment for this week's effort is certainly not like the normal Sunday afternoon at the office...

It is Friday afternoon, and we are out in John and Toni's screened in patio overlooking their pool...T.J. and Stefany are frolicking in the pool while grandma is sunning herself watching the girls...

We were just thinking, I really could be spoiled with this kind of life...watching the girls, with not a care in the world, we find ourself not even thinking of our normal trials and tribulations...

It's a beautiful day...temperatur in the 80's...not like Thursday when we made the seven hour trip taking our girls back to the Buckeye state...it rained all the way down, and was really pouring when we arrived...

This morning we stayed in bed until almost noon...we had the same feeling as the jet lag when we return from visiting Dane, Cyd and Amber in Nevada...

Grayling is not the only town that lets their residents know that the work day is through and it is time for dinner...the six o'clock whistle just sounded here in Amherst, Ohio, and for some reason we are getting hungry...must have been prompted by the whistle...

In case you didn't notice, it is now Saturday afternoon, and we're back in the spot watching the girls in the pool...they were joined today by a neighborhood friend, Karrie Mertz...

I always thought northern Michigan around Elmira and Posen were the big potato growers like Idaho...now I find another spot, Amherst was in the midst of their Potato Festival this weekend, with their parade Sunday...sorry we will miss it, I hope to be about halfway home by the time it starts...besides I have taken in a few Elmira Festivals in my younger years...

Up until now, with all the activities in the pool, and Thelma and Toni yacking we have had somewhat of a problem to come up with something to fill this turkey...now, everyone has left the back yard, it is so peaceful I can almost hear myself think...

Grandma and Toni took off to do some shopping, the girls went to their rooms to play, John is cleaning up his truck...that leaves the ol' fella alone with their black Lab, and she's sleeping...

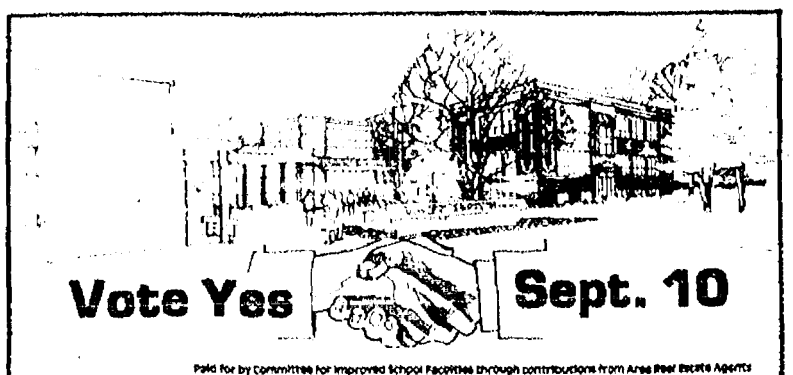

An idle thought from the Buckeye state...the date is approaching fast for the voters in the Crawford AuSable School District to cast their ballot on a millage question to renovate the Middle School...

The date is also approaching fast when the present building will become inoperable, and then what will be the alternative? Start teaching our students in makeshift church rooms, the old Fred Bear Museum? Or maybe, the school district could rent the National Guard Armory at Camp Grayling...that is brand spanking new and would probably last another 75 years...

Come on voters, think a little bit, someone paid for your education, and many of them certainly had to sacrifice to pay the bill...I know for a fact my father and mother did, because we were poor in those depression years...Thelma and I haven't had it so rosy, but, we remember someone paid so Toni and Dane could attend the Grayling school system...we're willing to help now, even though neither one of them will ever come back to make Grayling their home...

Something has to be done...we hope it will be in the affirmative...

With that, we hope we have enough stuffin for this turkey...goodnight T.J., Stefany and Amber, and to all have a nice weekend, it's getting to count down for Labor Day...

## The Bible Speaks

From Calvary Baptist Church

### THE "NO-KILL" CONTROVERSY

Anything to alter hunting and fishing in Northern Michigan brings immediate and emotional response. General public interest in the subject gives us an opportunity to examine some Bible principles which may apply.

First, fish were created by God, not government. (Genesis 1:20-22). God appointed fish as food for man to eat. (Genesis 9:2, 3). Jesus performed miracles involving the catching and eating of fish. In one miracle He helped fishermen catch two boat loads of fish. (Luke 5:4-9). Jesus not only ate fish, (Luke 24:42), but Jesus also caught, cooked, and served fish to his disciples after His resurrection. (John 21:9-13). The above facts are stated to simply remind us that one primary reason God created fish was for food; Possibly the favorite food of Jesus. Fishing was the favorite activity of the apostle Peter.

The motivation for a fisherman to repeatedly catch and release legal fish is pleasure. While most of us would agree that fishing is a good, clean, healthy sport which brings pleasure, it should not be the sole motive for hunting or fishing. To deliberately injure fish for pleasure is inhumane. God gave man dominion over fish, (Genesis 1:28), and therefore holds man accountable for their welfare. It is difficult to catch a fish with a hook and not do bodily harm to the fish.

One thing worse than fishing and hunting solely for pleasure, is wasting the game or fish killed. "The slothful man roasteth not that which he took in hunting; but the substance of a diligent man is precious." (Proverbs 12:27). Many nature lovers believe only the living creatures are precious, but God says they are still precious after killed. They are fulfilling one purpose for which God created

them. They are providing food for man.

The moral values of our age are characterized by the present controversy. The life or death of a few fish in the AuSable river can stir more emotions than the killing of 16 million babies. While the "No-Kill" proposal seeks to extend fishing pleasure at the mercy of the fish, abortion killing seeks to hide the sins of sexual pleasure at the mercy of the baby. Blinded by personal, selfish pleasure, we are willing to subject our fish to continuous torture, and our own babies to violent death.

### Blanchard is Riding High

by Richard Milliman

GOV. JAMES BLANCHARD is really riding high in the political waters these days. If the next election were to be held right now, the Republican candidate for governor of Michigan — whoever he or she might turn out to be — might as well stay home.

Blanchard got off to a really rocky start as governor, putting forth a 38 percent increase in the state income tax as one of his first efforts in office.

Of course, those who read the fine print in the early Blanchard tax plan recognized right away that built into the proposal was a tax decrease a couple of years down the road — right before Blanchard's next election time.

Economic upturn in Michigan, and across the nation, has alleviated some of the financial problems in Michigan. Is it due to Republican President Reagan's effort, or Democratic Governor Blanchard's efforts? It doesn't really matter, from a political point of view; whoever is in office gets the credit, or the blame, for what's going on. So chalk one up for Mr. Reagan, and chalk up another one for Mr. Blanchard. That's the way the game of politics is played.

OF COURSE, Blanchard critics will contend that losing the Saturn plant to Tennessee is going to work against the incumbent governor. It could be. However, many months will elapse before the next election is actually here, and the memory of Saturn-over-Nashville will be considerably blunted by then.

The governor has to take a lot of solace in the recent University of Michigan-Detroit News poll which showed the 68 percent of those who responded approved of the Blanchard performance. That's a hefty margin. Only 28 percent disapproved, and four percent were undecided.

Blanchard's ratings were just about the same as President Reagan's approval ratings in the same poll — which underlines the fact that whoever occupies the office at the time racks up the credit or the blame for what goes on.

For comparison, Blanchard's approval stood at 56 percent 10 months ago, which in itself was a whopping increase from the 34 percent approval rating just after Blanchard took office, and just after his tax program was highlighted.

WHICH GOES to show the political wisdom of Mr. Blanchard's overall strategy, which seems to be to put on a tax increase first thing and then the people will only remember the benefit from the higher taxes, and not the pain, by the time election rolls around.

Yes, if the election were to be held today, the Republican candidate might as well stay home. The same poll indicates that today, Blanchard would defeat the Republican front-runner, William Lucas, by 54 percent to 31 percent.

But one of the other truisms in politics is that the election is not being held today. The next governor's election is in 1986 — more than a year away. And a lot of things can happen in another 14 or 15 months.

And probably will.

ANOTHER POLITICAL adage is that polls really don't elect anyone. They just measure what the mood of the voter is at the time the question is asked.

The loser in a poll usually comes up with a downgrading comment such as, "Opinion polls don't mean a thing... the only poll that counts is the poll on election day when voters cast their ballots...and I'm going to win that one."

Polls do count, of course, as a measuring device. Politicians frequently trim their sails and veer their course depending on polls, or a measurement of public opinion. As an influence, polls are important, if interpreted correctly.

FORMER PRESIDENT Harry S. Truman was no fan of polls. All the polls, of course, had him losing to Thomas E. Dewey back in 1948, but Mr. Truman didn't believe the polls and came out a big winner anyway.

In a collection of Truman papers, published under the title of "Off the Record," Mr. Truman had this comment about polls:

"I wonder how far Moses would have gone if he'd taken a poll in Egypt? What would Jesus Christ have preached if he'd taken a poll in Israel? Where would the Reformation have gone if Martin Luther had taken a poll?"

"It isn't polls or public opinion of the moment that counts. It is right and wrong and leadership — men with fortitude, honesty and a belief in the right that makes epochs in the history of the world."

### State Hopes For Highest Note Rating For 1st Time Since 1978

Warren M. Hoyt, Exec. Dir., MPA

State officials are optimistic this year the state will obtain the highest possible rating on its short term notes for the first time since 1978, which combined with lower interest rates and a smaller loan, could cut borrowing costs in half compared to last year.

Treasurer Robert Bowman said the success of convincing New York rating agencies to boost the state's credit standing will determine if the short term borrowing will be made without outside support for the first time since 1981.

The \$350 million note, down from \$450 million last year and \$500 million for each of the prior five years, is needed to meet initial school aid, college, and local government payments when the fiscal year begins October 1.

"Our fiscal picture has improved dramatically more than any other state. I'm optimistic (the state will get a higher rating)," Bowman said. He blamed the presence of the Proposal C tax cut amendment on the November, 1984 ballot for preventing the state from getting the highest credit rating on its own then.

The notes required a letter of credit backing from outside banks for the third straight year to obtain the Moody's Investors Service highest rating of MIG 1.

That support cost the state \$1.8 million in addition to the \$31.5 million in interest costs.

Bowman said this year's costs should be about half of that total \$33.3 million.

Interest costs are currently lower than the 7 percent paid last year, although he said they are beginning to increase and will be higher by the time the notes are sold in September.

By that time, the state will be about two months away from retiring an accumulated debt that reached about \$1 billion in 1982. Less than \$100 million of the debt, which had not been shown on state books because of accounting changes, remains.

"We have talked about our plan being in place. Now, we'll be 60 days away from the darn thing being done," Bowman said.

The \$350 million the state is planning this year is the smallest amount borrowed for cash needs since \$200 million in April, 1978, at the onset of the late-70's recession. That was also the last note that carried a MIG 1 rating, without outside backing.

Bowman said he will also be talking with officials at Moody's, and at Standard and Poor's, about upgrading Michigan's long-term credit ratings.

Michigan now has an A rating from Moody's, a full three steps from the highest possible which it shares with only three other states, and an A-plus from Standard and Poor's.

Bowman said the discussions will occur near the end of the month or early September.

## KCC Offers Impressive Performing Artist Series

The Kirtland Performing Artist Series sixth season of entertainment features an impressive variety of top quality shows including country western luminary Tom T. Hall. Hall begins the 1985-86 season on Saturday, October 5th, at 8 p.m.

Hall came to national prominence in 1968 as the songwriter of "Harper Valley P.T.A." That hit song sold over 6 million copies and topped both the pop and country charts earning him a Country Music Association Award. Since then, many other stars have recorded his songs and he has a string of his own recorded hits like "Sneaky Snake," "Old Dogs, Children and Watermelon Wine," and "I Love."

On Sunday, November 10th at 3 p.m., Kirtland presents the exciting Das Puppenspiel, a troupe of four puppeteers who create a fascinating theatrical experience with puppets. The two dramas which will be presented in the "Bunraku" (boone-ra'-coo) style will make an enchanting afternoon for the children and will be just as engaging for the adults.

"The skill and the theatrical imagination which these people bring to bear on their work is quite impressive," said Dr. Amsden, Kirtland's former Theatre Coordinator.

John Hartford (Saturday, March 22, 8 p.m.) is nearly a household word across the country and is a consummate favorite of all traditional music lovers. His biggest claims to fame are his appearances on the Glen Campbell and Smother's Brothers television shows and the song "Gentle on My Mind" which he wrote. However, those who have attended a live concert know that his true calling is in his electrifying live performances. The charismatic Hartford plays, sings, and dances. He is one of the most exciting solo performers touring the country.

The season will conclude on Saturday, April 19th at 8 p.m. with a special and capable dance troupe from Detroit. "The Harbinger

Dance Company" was selected not only for their strong performances and excellent reputation, but because they are rooted in accessible classical and modern styles.

"I am certain that our community will embrace this group and want to have them return soon," says Amsden. The Harbinger Concert is sponsored jointly with the Roscommon Arts Council, Crawford County Arts Council, and the Michigan Council for the Arts (pending funding approval).

The Kirtland Players will also contribute two performances during the 85-86 season. The Fall production will be during the first weekend in December, and the Winter/Spring show will be presented during the first weekend in March. Each of these shows will be selected later in the year by the new Theatre Coordinator, who will begin work at Kirtland

at the conclusion of a national search. Dr. Amsden, former Theatre Coordinator, was appointed to the faculty of a liberal arts college in Kansas and resigned from his Kirtland position this summer.

Individual and season tickets will be available shortly after Labor Day. Advertising space in the event programs is available and interested businesses may contact Rochelle Stewart at 517/275-5121, ext. 279.

Delp's fiction has been published in numerous periodicals including "Detroit", "The Flyfisher", and "Wonderland". Area residents have read his articles and column "UpNorth" in the "Crawford County Avalanche".

## Doodles From The Tall Timber

By Wendell L. Hoover  
Park Interpreter

Whenever I think of turtles I picture a log with turtles laying in the sun. Along our streams and lakes this scene is probably not out of line and the turtle which we most often see is the painted turtle. Yellow streaks on the side of the head and red areas usually found around the lower edge of the carapace (upper shell) are distinguishing field marks. The turtle is found statewide with two subspecies which in appearance are very similar. This turtle seldom exceeds eight inches long, lays five to eight eggs in early summer, usually near the waters edge. Food for the most part is aquatic plants and animals, dead or alive and eaten only under water. According to one source it serves as a scavenger, but is of no value as food since the flesh is poor. Like other turtles it hibernates in cold weather.

A turtle which we seldom see in this area is the wood turtle since its range embraces the Upper Peninsula and the northern third of the Lower Peninsula. This turtle has a raised, ridge-like keel down the center of the top shell (carapace), usually less than ten inches long by five inches wide. This turtle is semi-aquatic. It seems to be equally at home in fields and woodlands or in ponds. They feed on either plants or animals, but prefers plants including fruits, berries, tender leaves, mushrooms, slugs, snails and worms. One source I have, states that this turtle has the unusual ability to climb, but I haven't found anything to verify that.

## Shots Are For Everyone

Immunization Action Month is in progress. Health Departments all over the State are reminding residents to Protect, Immunize, and to remember that Shots are for Everyone!

"Everyone" means not only children entering school, but college students, parents and grandparents.

Dr. Gordon Rady, M.D., (Health Officer/Medical Director) of the Crawford County Health Department, urges citizens 60 and older and those with chronic diseases, to call their doctors or the health department to arrange for flu shots, and for all college-bound students to be sure they are up to date especially with measles and rubella immunizations.

"Our little children entering school are required by Michigan law to have protection from measles, mumps, rubella, tetanus, diphtheria, whooping cough and polio," reminds Dr. Rady. "Check with your doctor or the Health Department if you're not sure about your child's needed shots."

Immunization clinics are offered by the Health Dept. Here is a schedule: Immunization Clinic - 4th Monday of each month, 9 - 11 a.m. & 1-3:30 p.m. at the Crawford County Health Department, Courthouse, Grayling. Phone 348-2841 extension 258.

The Health Department is located at the Courthouse, Grayling. Telephone 348-2841 extension 258.

## Environmental Noise Studies Conducted:

Brigadier General Jerry Mathieu, The Assistant Adjutant General Army for Michigan, announces that the continuation of on-going Environmental Noise studies will be conducted at Camp Grayling, 26 through 28 August 1985.

These essential scientific tests will be conducted in the Range 40 (artillery) area by the U.S. Army Corps of Engineer, Research Laboratory.

Noise levels of mortar, artillery, and Air Force delivered live bomb ordinance will be recorded, measured and evaluated in the environmental interests and concern for future noise abatement.

## Herbal corner

Let's talk about harvesting. Never mind holding my tongue, darlin'. What with the weather doing its queer thing, we best be thinking of it soon.

Our tomato crop seems to be abundant, but I do not think we will get many ripened on the vine in the ground. What we usually do at the end of the season is to pull the plant up by the root, hang it upside down in the garage, and pick as we need them. They will ripen this way and without much loss.

Usually laying them flat on a surface, even newspapers, they develop rot spots — not to mention the room they take up. With them hanging up in the garage, they will get more nutrients from the stem.

And if you are truly the economical person, you can save the dried plants for kindling in your wood stove. The best way I know of getting sweet satisfaction is watching your dried vegetable plants burn while you have all kinds of devilish thoughts running through your head while thinking about your plants not producing all they should.

Should some of your plants go to seed, don't despair and throw them in the fire as well. If you like the vegetable, try planting some of the seeds in November after you have dried them. My Dill came up voluntarily this year and was twice the size as last year. I have found that seeds from my plants are acclimated to our area and seem to grow more abundantly the next year. Your tomato seeds can be planted right from the fruit. Just mark a spot in your garden and bury a few seeds. Next March dig up that spot about two inches down, put it in a pot and feed it. You should have plants within two weeks. Leaving a carrot in the ground till next year will produce seed heads.

Herbally yours,  
 E. Diona Cerelli, C.H.

## Resource Review

By Bruce Patrick  
Conservation Officer

A fairly recent addition to the critter population of Crawford County is the opossum. Absent or very rare in Michigan during pioneer times, the opossum began showing up increasingly during the early 1800's and seems to have disappeared completely about 1860. Sixty years later they reappeared and have become widespread in the southern Lower Peninsula since 1927. A slow northward extension of range has now reached Crawford County. I have observed a number of road killed opossums in the County since spring. The first I have seen in six years.

The opossum is a sort of living fossil, virtually unchanged for millions of years. The only marsupial in the world outside of Australia, the female possesses a pouch in which the young are carried and nursed during infancy.

Not a particularly smart animal, the opossum owes its existence to a willingness to eat anything dead, alive, animal or vegetable; a very high reproductive rate and an ability to adapt to different environmental conditions.

The opossum is relished as table fare in the south and is eagerly sought, but is of little importance in Michigan as either a game or fur bearing species.

### Clay-Duck

#### Hunt Aug. 24

On August 24, 1985, the 4th Annual Grayling Clay-Duck Hunt will be held at the Grayling Sportsman's Club on Old Lake Road. The hunt and following dinner are sponsored by Duck Unlimited, a national organization dedicated to raising money for the preservation of wetland areas for wildlife habitat.

The day long event will be held in two parts; the first starting at 12:00 noon. Shooters will compete in four different events, styled after actual duck hunting conditions, such as lying in a lay-out boat, sitting in a duck blind and walking through a maze, while random skeet and trap targets are thrown. Hand carved duck decoys will be given as top prizes and door prizes distributed to all shooters.

The shoot will conclude between 6 and 7 p.m. and a traditional Duck Unlimited dinner will follow at Patty's Country House on South Millikin Road in the Industrial Park. Nearly \$3,000.00 worth of artwork, shotguns, and rifles, will be auctioned or given in various drawings or as door prizes.

The hunt and dinner are both open to the public and may be attended individually or separately. Tickets may be purchased from most local D.U. members or at the Grayling State Bank and Grayling Hospital for Animals.

### Strolling Around Town

By Fay

Not in town this week but just outside of the city limits on Roberts Road we found some well-kept homes and beautiful pots of petunias at Margrethe Mangsen's home and also some at the house next door. In Clough subdivision the Shurleiffs have some nice phlox and further on down, the Schrams always have a well-kept yard and a big bed of flowers.

Some of the other places that we noticed that had flowers were the Walt Nowaks, the Hauxwells with unusual planters (one way to make use of old grills), the St. Germaines, the Don Fergusons, the Trudeaus, and many other places whose names we do not know. There are really some very pretty landscaped homes out in that sub. Just back into the city, Hilda Davis' new house has some unusual colored petunias, almost like velvet.

Please keep those phone calls coming and tell me about your own or your neighbors. Everyone enjoys the flowers and neat yards.

## Summer Singers Program

Crawford County children had the opportunity to sing and perform together for the second summer through the Crawford County Arts Council's Summer Singers program.

The five-week program was taught by elementary school music instructor Peggy Emerick. Between 12 and 16 children — mainly pre-school and elementary students — attended the sessions, which met for one hour every Tuesday and Thursday morning.

Summer Singers was also open to middle and high school students; but Arts Council President George Morse feels that older students were less likely to attend, because, unlike the younger children, they are not used to having vocal music classes in school.

Morse stated that the program was started to fill that void which exists in vocal music offerings beyond elementary school, and that it

### Calling

#### Girl Scouts

August is here and September is coming fast. Some troops are all registered and ready for activities since spring. Others will be registering this month at the Michelson Memorial United Methodist Church at 7:30, August 27th.

Why not come and join the other Brownies, Juniors, Cadettes, and Senior Girl Scouts? We have lots of fun and learning for you. A big change this year is calendar and cookie sales have been moved to summer and fall, but you have to be registered to sell them. Calendars can be sold from August to January, as the leaders wish. Cookie sales will be in October, for the first time, to give the troops funds to do with for the year. Also order taking and delivery will be before the snow flies. Will make good Christmas presents.

Registration is for parents and girls to sing up with leaders, fill out medical cards, and parental consent forms. A fee of three dollars will be paid that night for new Girl Scouts or troops without registration money set aside from last years cookie money.

See you August 27th at 7:30 at the Michelson Church. A fantastic year awaits you in Girl Scouting.

## New Leadership and Activities For Singles

Singles drop-ins are held regularly every 2nd and 4th Tuesday at 7:30 p.m. Check with your local pastor as to location.

Kay Mathews, a member of the Grayling Free Methodist Church, graciously accepted the leader's role for the newly organized singles group. Leadership will rotate on a three month basis, which will enable persons to handle responsibilities of the organization without overburdening an already busy schedule. Others will, likewise, be asked to be on short term planning committees which will bring a variety of experiences for interested singles.

Under Kay's guidance the singles planned a progressive spaghetti dinner for August 20th. The final stop took place at Lake Margrethe for dessert, a pontoon tour of the lake, a bonfire with marshmallows and camp songs.

Also in the future is a trip on August 25th to the historic Mackinaw City to enjoy the beauty of the Straits at Sunset and the inspiring experience provided by the Sunday Vesper Cruise which leaves the Arnold Transit Dock South at 8:00 p.m. There is no charge but a freewill offering will be taken. If you are single and need a ride or can offer your car for car-pooling call 348-2974 from 9:00 a.m. to 12:00 noon, or call Kay after 5:30 p.m. at 348-2875.

The next regular drop-in will be at the Grayling Free Methodist Church, M-72 West, at 7:30 p.m. on August 27th. Singles of any age out of high school are welcome to come and join in the fun and fellowship.

## Halley's Comet

Halley's Comet is on the return leg of its 76-year tour of the solar system and Lick Observatory astronomers at the University of California, Santa Cruz have charted a "road map" of nearby stars for part of the comet's trip back to the old neighborhood. Halley's Comet will be visible — through a telescope — in the Lick "road map" part of the sky through October 1985.

Astronomers expect that the comet will brighten enough by January 1986 to be seen with the naked eye.

## Chamber Chatter

My personal thanks this week goes out to Dave and Colleen Wyss of Jim's Canoe Livery for organizing last Sunday's Riverboat Regatta. Dave and Colleen did all the work themselves which makes my job a lot easier. We are proud to have them as members.

The last week I have concentrated my efforts out of the office to contact more of our members. I really enjoy spending a few minutes in each business looking and learning and listening. If I haven't been to see you yet, I apologize, and promise to see you soon. In the interim, please call on me if you need me.

On Tuesday, Aug. 27 Mr. Michael Delp will be doing a poetry reading in the dance studio of the Mini-Mall. The reading begins at 7:30 p.m. Mike is an excellent poet so please give him your support.

This week we welcome Goodale's Bakery, Centel Cable TV, and Linda Knibbs into membership. We are truly growing now which means more support for the Community. Welcome aboard folks, we are looking forward to working with you for the betterment of the community.

## CHURCH DIRECTORY

### Every Man's Home Is ...

Sure, once it was comforting to think that your home was your castle. Castles don't provide the security they once did.

Better to view our homes as moral and spiritual fortresses. Here we can live our beliefs and principles, and provide example to our children. Here we shelter those we love from ideas and influences that would harm them.

Except that today only a fraction of life is lived at home. The individual must gain a strength and integrity to carry to the street!

It is gained—and shared with those we love—as families worship God.

At home and at church we build our castle!

### RSVP Reports

By Aleta Thompson

We are busy getting ready for the 3rd. Annual Crawford County Fair. In our office we have two lovely items that will be given away at the fair. Miss Piggy and Happy Face the clown. Friday promises to be a special day for the seniors, as the afternoon festivities include entertainment by area musicians. King and Queen Ace Leng and Loretta Barnes, will represent RSVP.

The Roscommon Community Center Senior Citizens donated a raffle wheel to the RSVP program. They are excited about the expansion of RSVP into Roscommon County. The office in Roscommon County will be located at the Roscommon County airport, on North Shore Drive. It is centrally located to the communities of St. Helen, Roscommon, Higgins Lake, Prudenville, and Houghton Lake. We hope to find as many dedicated volunteers down there as we have here in Crawford County.

Now you folks with Birthdays in August, don't forget the Birthday party held here at the RSVP office on Wednesday, August 21st. Our picnic this month is being held at the park next to the Chamber of Commerce building. Bring a dish to pass, and your utensils and a dish, plus don't forget to bring a gift-wrapped white elephant. The date is August 28th at 1 p.m.

RSVP is a challenging and rewarding program here in Grayling. Our volunteers serve an average of four hours a month. The only criteria for participation in the program is that a person be 60 years or older.

If you are interested, come in to see us at 308 Lawndale or call us at 348-8322 or 348-4341.

The election was held at the annual meeting on August 8th and 9th.

The purposes of the administration's organization are to improve the quality of research being conducted by two-year colleges, identify funding sources to meet the expanded needs of community college, and to establish communication channels within the state community college system and disseminate information regarding research and development.

Perry was presented a gavel for serving the past three years as an officer of the organization.

### C.O.O.R. Contract Settled

The C.O.O.R. Intermediate School District Board of Education and the C.O.O.R. Education Association have reached agreement on the Master Agreement for Teaching/Professional staff for 1985 through 1988.

The Agreement calls for a 4% salary improvement for the 1985-86 school year; a 4% improvement for 1986-87, and an approximate 5% improvement for 1987-88.

C.O.O.R. teacher salaries are tied to local school settlements and the 1987-88 contract is not complete at this time.

The contract includes a minimum of language change and retains the basic elements of the previous contract. Both C.O.O.R. Education Association and the Board of Education view this early settlement as a positive sign which will enable the C.O.O.R. staff to make long range plans to provide Special Services and Programs to the local school districts of this area.

The C.O.O.R. Board ratified the contract at the August 14, COOR Board of Education meeting.

### Moose News

Our childrens picnic was held on August 17th at Jones Lake. We had a very good turnout. We had lots of games for the children as well as the adults. We enjoyed a meal of chicken, hot dogs and kielbasa as well as all the variety of dishes everyone donated. A special thanks to Chris DeHart and David Myers Jr. for cooking the chicken, it was delicious. We had two drawings for the adults. The pots and pans were won by Linda and the watch was won by David Smith. We also gave away two pizza's donated by Pizza Hut for the children. Joannie Sinclair won one and Stormy Foreman won the other. A great time was had by all and we wish to thank all the members who helped as well as all the local merchants who donated.

Don't forget if you wish to see our proposed new building it will be open for inspection on Saturday, August 24 from 9 to 10 a.m. If you need directions drop in the lodge. Following the inspection at 12 Noon at the lodge a Special Meeting will be held and all paid up members will be able to vote on this building.
